Owner: \_\_\_\_\_

Date: \_\_\_\_\_

Patient's Name: \_\_\_\_\_

I, the owner or authorized agent for the above described animal, authorize the following procedure and the use of appropriate anesthetics, and other medications, and I understand that hospital staff will be employed as deemed necessary by the veterinarian.

Today's Procedure(s): \_\_\_\_\_ Initials: \_\_\_\_\_

Estimated cost without any additional options \$ \_\_\_\_\_

**Surgery Option 1**  
**\$85**

**Pre-Anesthetic Blood Test**

**Why is this important?** This test can help alert us to some of the more common problems allowing extra precautions to be taken with your pet's anesthesia.

A blood test can be performed before your pet undergoes anesthesia, to test the functioning of the kidneys and liver, the key organs that help filter the anesthesia.

**IV Fluids**

**Why are IV Fluids Important?**

IV Fluids help to help prevent shock, and protect kidney function lessening the chance for complications during surgery.

Estimated cost of today's procedure with these options \$ \_\_\_\_\_ Initial \_\_\_\_\_

**Surgery Option 2**  
**\$30**

**IV Fluids**

**Why are IV Fluids Important?**

IV Fluids help to help prevent shock, and protect kidney function lessening the chance for complications during surgery.
